

ASHE ORO

CRYPTO-ECONOMIST • LIBERTY ENTREPRENEUR

Ashe Oro is a freedom lover, professional speaker, host of the Liberty Entrepreneurs Podcast, founder of Liberty Virtual Assistants and previously the head of business development for Euro Pacific Bank.

Ashe has dedicated his life to opening conversations about the idea of “building freedom” and speaks with a passion that can only come from experience.

With a background in Engineering, Economics, and Entrepreneurship, Ashe pulls from multiple perspectives and invites the audience on a journey to explore how to achieve personal liberty and build a free and flexible lifestyle.

“I appreciate Ashe’s thoughtful mind, dedication to reason and that he’s a rare breed of econ-minded individuals who express Hayek’s timeless humility; that we know so little about what we imagine we can design.”

— ERIK VOORHEES, CEO OF SHAPESHIFT.IO

“When Ashe Oro spoke at the Nomad Coffee Club, the largest and longest running online entrepreneur meetup in Chiang Mai, he drew an audience of over 100, the largest turnout we’ve ever had. His talk was relevant to newbies and crypto veterans alike, as he shared several real, actionable methods to cashflow our crypto investments.”

— STEVE RUGGIERO - FOUNDER OF NOMAD COFFEE CLUB - CHIANG MAI, THAILAND

KEYNOTE TOPICS

BUILDING FREEDOM AS A LIBERTY ENTREPRENEUR

Lifestyle design or libertarians and free-thinkers

Freedom doesn't come from political action; it's more personal than that. Individual freedom comes from understanding how you can create value for others. The concept of building freedom' is obtainable, but requires the action-oriented mindset of a Liberty Entrepreneur.

BLOCKCHAIN-BASED SOCIAL MEDIA

How content creators can earn cryptocurrency

As a creator, you know how much time goes into your content. All you get are upvotes and eyeballs that don't amount to much. What if those same upvotes resulted in cryptocurrency rewards? This presentation introduces the next generation of social media platforms where you and your audience get rewarded for the valuable content you create and curate.

TOKENOMICS: GROWING DIGITAL COMMUNITIES

Using voluntary inflation to incentivize cooperation

How can tokenized money be used to grow our communities? How can we incentivize people to be engaged? How do we support the entrepreneurs building our digital infrastructure? This talk introduces 'voluntary inflation' and how new token creation can benefit the entire community.

BREAK-UP WITH YOUR BANK

Financial Freedom for Digital Nomads

Banking options for Digital Nomads can be difficult and confusing. The legacy system wasn't created to support the uber-mobile lifestyle. Getting approved for bank accounts, paying absurd currency exchange rates and wondering if a client can pay in to your account could be a thing of the past. Digital currencies offer us the ability to control and manage our currencies and the freedom to do business with anyone without first getting approval from the old financial gatekeepers.
